CHAPTER 8:-Results

Results and impact of CRM applications in public transport management systems.

- **Automated sales and licensing workflows**
- **Integration with traffic control systems**
- **Improved partner and vendor communication**
- **Advanced analytics and reporting** This led to increased productivity, better customer base management, and streamlined operations.

8.1 - Output Screenshots

Bus station:-

The screenshot displays a web application interface for managing bus stations. A modal window titled "New Bus Station" is open, showing a form with the following fields and controls:

- Information Section:**
 - Bus Station Name:** A text input field with a red error message "Complete this field."
 - Amenities:** A list of available amenities (Accessibility, Information and S..., Food and Drinks, Safety and Security) with a "Chosen" list next to it.
 - Shelter available:** A checkbox.
 - Bench:** A checkbox.
- Adress Information Section:**
 - Bus Stop Category:** A dropdown menu currently set to "--None--".
 - Owner:** A field showing "Rajitha Sangana".

At the bottom of the form are three buttons: "Cancel", "Save & New", and "Save". The background interface includes a sidebar with "Public Transport" and "Bus Stations" tabs, and a "Recently Viewed" list showing items like "chennai" and "Balaji Bus Stand".
